

Vision:

Leadership role in water resources management of Brahmaputra and Barak Basin for sustainable development of water resources to provide optimum benefits to the people with emphasis on control of flood and bank erosion.

Objectives:

- To prepare Master Plan of river basins for optimum utilization of water resources with special focus on flood management and bank erosion.
- To assist states in Brahmaputra and Barak Basin in planning and implementation of flood control and anti-erosion schemes.
- To formulate and execute water resources projects including flood control and anti-erosion schemes identified in the Master Plan.

Functions:

- Collection, compilation and analysis of basin-wise data for preparation of Master Plan.
- Preparation of Detailed Project Report (DPR) of Multi Purpose Projects identified in the Master Plan and their execution.
- Preparation of DPR of Drainage Development Schemes identified in the Master Plan and their execution.
- Assist states in Brahmaputra and Barak Basin in preparation of estimates/DPR of flood control and anti-erosion schemes and other water resources projects including their implementation and undertake monitoring during construction.
- Take up execution of flood control, anti-erosion, drainage development schemes and other water resources projects with the consent of the concerned State Government.
